

I am a regular listener to K-LOVE radio which is broadcast over an FM translator. Before I could receive K-LOVE, my community could not receive a clear signal of any FM radio station broadcasting Contemporary Christian music. K-LOVE has been a blessing to me and others in my community. It provides wholesome, family-friendly programming that edifies the character of all ages. It also provides news reports from a perspective that my community would not otherwise be exposed to. I would sorely miss K-LOVE if I was no longer able to receive it because I have no other FM radio resource for its kind of programming where I live. I believe K-LOVE's broadcasts are an important benefit to my community and should not be hindered.
